

# Mobile Handwash Station – MHS1010

## FULLY PORTABLE HANDWASH SOLUTION - NO PLUMBING REQUIRED

The new MHS1010 provides a portable handwashing solution designed for the most demanding applications, with minimum setup required. All that's required is a standard UK socket to provide instant warm water for over 100 hand washes per fill, supplied from its internal 20L water capacity – with waste water tank to match.

### Features

- 304 grade stainless steel construction and hygienic design
- Touch free infrared mixer tap and soap dispenser
- Hot water (pre-set at 42°C) to maximise user comfort
- Extra height splashback to keep area free from water
- Hand towel dispenser included
- Swivel and braked castors allowing easy positioning
- 2 kW water heater with capacity for high demand
- 3m cable with standard UK 230V plug
- Water supply – external connection or internal tank
- Drain – external hose connection or internal tank

# MOBILE HANDWASH STATION

Compact and robust – 100 hand washes per fill

### Water supply

On-board fresh water and waste water containers so no plumbing is required to install the unit

### Pre-configured

All setup is completed in the manufacturing process so that the unit is plug and play

### Soap refill

A 1.6L soap vessel will last for many washes and is quick release for easy refilling

### 304 Stainless

Stainless steel build for hygienic applications and long lasting durability

### Castors

Swivel castors, 2 with brakes, so it can be wheeled into position and fixed

### Touch-free

Minimise infection risk with no touch required for soap dispenser or tap

### Approved

All wetted parts are WRAS approved or food grade to ensure necessary approvals are in place

### Mixing valve

The water is mixed at 42°C by a TMV3 valve for compliance

### Mess-free

Anti-drip bezel and 12" splashback to keep the surrounding area clean

### Available now

Manufactured in the UK with a lead time of only 1-2 weeks

## External connections

- Clean water** 12mm push fit tube (hose extension included in external connection kit)
- Waste water** 3/4" hose tail (hose extension included in external connection kit)
- Electricity** Standard UK plug with 13A fuse
